Last NAME: First Name:

Computer Science C.Sc. 342

Quiz No.1

Time of performance 5:00-6:15 PM on February 23, 2022

Please write your Last Name on every page:

NO CORRECTIONS ARE ALLOWED IN ANSWER CELLS!!!!!

You may use the back page for computations.

Please answer all questions. Not all questions are of equal difficulty. Please review the entire quiz first and then budget your time carefully.

Please **HAND WRITE** and sign statements affirming that you will not cheat:

"I will neither give nor receive unauthorized assistance on this exam. I will use only one computing device to perform this test"

Please HAND WRITE and sign here:

MOST SIGNIFICANT BIT IS 7. LEAST SIGNIFICANT BIT IS 0.

1. [10 points] For **each 8 BIT** binary pattern shown in the table below please write corresponding values of the following interpretations: **UNSIGNED INT, SIGNED INT, UNSIGNED Fixed Point, SIGNED Fixed Point.**Each correctly answered column is **2.5** points. *FIXED POINT IS LOCATED TWO POSITIONS FROM THE RIGHT!*

76543210	UNSIGNED INT	SIGNED INT	UNSIGNED Fixed Point	SIGNED Fixed Point
10000000				
10000011				
10000001				
01000001				
01111111				
11111111				
11111100				
0000000				
01111110				
10001110				
00010011	19	+19	$4 + \frac{3}{4} = \frac{16 + 3}{4}$	$+4 + \frac{3}{4} = +\frac{19}{4}$

Fixed	Point

- 2. [10 points] What is the most negative number (largest absolute value negative) that can be represented using 16 bit signed integer representation? Please CIRCLE AROUND over all the correct ones: -32768, -65536, -16384, -32767, NONE
- **3.** [10 points]Please subtract two number in Hex. Then convert each operand to binary and perform the same operation in binary, then repeat BASE 10. The signed integers are represented using two's complement.

0x0E		
-	-	-
0xFF		

Result: 0x 0000 0000b dec:

In EACH Questions 10.1-10.4 you are given SIGNED Integers stored in 32 BIT Registers. (Not 33-BIT Register). Please write decimal, and binary operands and the results. For each question you have to write the result and overflow or No overflow. You may override '0' with '1'. (5 points) What is the result (hexadecimal, decimal and binary) of the following addition: 0x0000000E 0xffffffff HEX: Decimal: 10.2 (5 points) What is the result (hexadecimal, decimal and binary) of the following subtraction: 0x7FFFFFFF 0xFFFFFFFF HEX: 0x0000000000Decimal: Binary: (5 points) What is the result(hexadecimal, decimal and binary) of the following subtraction: 0x80000000 0×FFFFFFFF Decimal: 10.4 (5 points) What is the result(hexadecimal, decimal and binary) of the following addition: 0x7FFFFFFF 0XFFFFFFF **Binary** HEX: **Decimal:** Please write your result in the following form:

OVEREFLOW
